OVERVIEW

PRODUCTION PLANNING AND SCHEDULING:

Business Central facilitates precise production planning by providing tools to schedule and track production orders, allocate resources efficiently, and ensure punctual deliveries. This leads to reduced lead times and improved delivery reliability.

SUPPLY CHAIN VISIBILITY:

The platform enhances supply chain visibility from procurement to distribution, leading to superior demand forecasting, vendor management, and overall supply chain optimization.

ABOUT US

WHO WE ARE

Welcome to Zetamind Consulting Limited, your trusted ally in ushering manufacturing companies into the digital age. Our specialization lies in crafting bespoke solutions powered by Dynamics 365 Business Central, meticulously designed to cater exclusively to the unique needs of the manufacturing sector. Armed with an in-depth understanding of both manufacturing intricacies and the Dynamics 365 platform, we empower manufacturers to streamline operations, amplify productivity, and secure a competitive edge in today's dynamic market.

CHALLENGES CONFRONTING MANUFACTURING ENTERPRISES

Manufacturing companies in Nigeria confront a myriad of challenges that can significantly impact their operations and growth. Here's a closer look at some of these issues, which can be effectively addressed or vastly improved through Business Central:

OVERVIEW

DATA INTEGRATION

Integration with other systems, such as CRM and e-commerce platforms, ensures data consistency and workflow streamlining, overcoming the challenge of data silos and inefficiencies.

GLOBAL EXPANSION

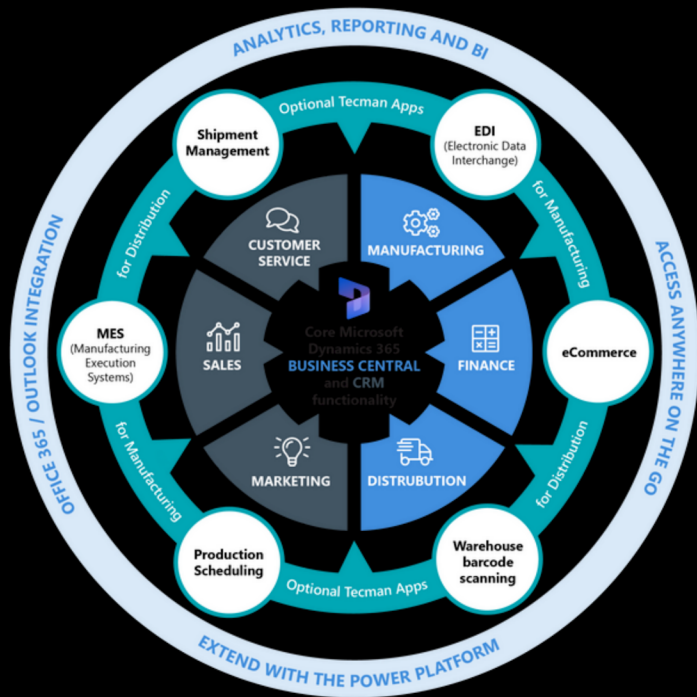

For companies with global operations, managing international subsidiaries, currencies, and compliance can be intricate. Business Central's multi-currency and multi-language support simplify global expansion efforts.

RESOURCE ALLOCATION:

Efficiently allocating resources, including labor and machinery, is critical. Business Central's resource management capabilities empower manufacturers to assign resources effectively, maximizing production capacity.

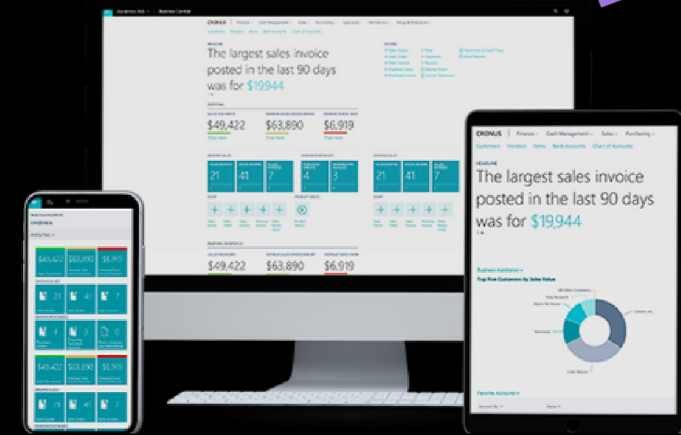

BENEFITS OF DYNAMICS BUSINESS CENTRAL FOR MANUFACTURING COMPANIES

RELIABLE WHOLESALE DISTRIBUTION:

The platform supports wholesale distribution through tools for managing the entire distribution process, from order processing and invoicing to delivery and payment tracking.

EFFICIENT WAREHOUSING OPERATIONS:

Dynamics BC offers real-time inventory management, allowing manufacturers to optimize warehouse operations by tracking stock levels, managing storage locations, and automating reorder points.

AGILE PRODUCTION MANAGEMENT:

Business Central offers robust production management capabilities, enabling manufacturers to plan, schedule, and monitor production processes in real-time. It facilitates agile responses to changing demand, optimizes resource allocation, and minimizes downtime, ultimately boosting production efficiency.

OVERVIEW

ALL-IN-ONE DYNAMICS 365 BUSINESS CENTRAL SOLUTION FOR MANUFACTURING COMPANIES:

Transforming your company into a one-stop solution provider for manufacturing entails a strategic approach. At Zetamind, we offer Dynamics 365 Business Central, available both in the Cloud and On-Premise, tailor-made for the manufacturing industry to tackle complex challenges. Revel in enhanced information access, seamless collaboration, precise data tracking, automated transactions, and standardized financial information.
